

Pelletti socks

In honour of the 20-year-old Pelletti

Size about 38 (42)

Yarn Novita 7 veljestä (7 brothers) 100/200 (200) g, 047 lichen (light gray) and a little bit of 391 kuusikko (spruce, dark green), you can change the colours if you want

Knitting needles 3.5 or other according to your preference

Density 21 stitches = 10 cm in stocking stitch

About the sock size

The size of the sock depends on the shape of the foot and the needlework of the knitter. The sock is a unisex model and quite wide. Be sure to adjust the socks in between and adjust the number of stitches as needed to get the best of your own socks sitting on your feet!

Overview of the socks

The socks largely follow the instructions of Novita's basic socks, but the arm is decorated with an embroidered pattern. In addition, a picture of broccoli is looped on the footboard.

Leg

Cast on 52 (56) sts on gray. Divide the loops on four needles and work 2 dc, K2 closed knit 3 cm. Work one layer in gray stocking st and inc 4 (4) sts evenly. Now there are a total of 56 (60) sts on needle. Start embroidered pattern according to size 38 or 42 from the bottom right. After the pattern knit one layer of stocking st in gray and narrow evenly 8 (8) sts. Continue with these 48 (52) sts in stocking st for 4 cm. (Note: If you want a tighter ankle, you can knit elastic instead of stockinette.)

Heel

Start the heel by knitting the loops of the first needle on the last needle, then there will be a total of 24 (26) sts on the heel. The heel is knitted as a smooth knit. Always lift the floor first loop without knitting. When the heel is 25 (27) feet high, start with the heel reductions. Work right side until 9 (9) sts remain and cast over lift one st correctly without knitting, knit the next st correctly and take the raised st over the knitted loop. Turn, lift the first st on needle and work 6 (8) sts on needle. Knit the next 2 sts together. Next, on the right side layer, lift the first loop without knitting, work until 8 (8) sts remain and make overstretch. Continue reductions this way on the next layers, and make sure the number of loops in the middle stays the same, i.e. 8 (10) sts, and the loops on the sides are reduced. The heel is ready when on the sides the remaining loops end and there are 8 (10) sts left.

Foot

Divide the heel loops into two needles. Pick up 12 (13) sts on each side of the heel and in addition 1 st between needles. Knit the picked loops twisting correctly, ie from the back edge so as not to holes would arise. Knit the other sts correctly. There are now a total of 58 (64) loops. Continue in knitting stockinette one layer, then start wedge dec, ie knit two at the end of 1st needle the last st together and at the beginning of the 4th needle make an overhang. Knit one layer without tapering, repeat the tapers again on the next layer, then work two layers without narrowing, thinning layer, three layers without narrowing, thinning layer, and so on, until there are a total of 48 (52) sts on needle. Continue in stocking st. When the bottom length is 20 (22) cm or little toe covered, start tip tapers. Knit 2 sts tog at the end of 1st and 3rd needles, 1 st and 2nd and At the beginning of the 4th needle 1 dc and make overhang. Repeat dec on every other layer until each needle has 6 (7) sts. Then repeat dec on each layer until there is work a total of 8 sts. Finally, cut the thread and thread it through the loops.

Knit another sock in the same way.

Finishing

Stitch the picture of the broccoli in the socks according to the grid drawing in the middle of the footboard. Infer the threads. Wet the socks and dry on a flat surface.

We wish you a pleasurable knitting time!
