On Wappu Picnic everybody is
already on summer mode!

Sincerest congratulations for getting admitted to LUT, our environmental technology programme was a great choice! You're holding a copy of our brand-new fresher magazine, *Pelehti*, where you'll find essential information about Pelletti as well as the key people and organizations that will help you navigate the beginning of your studies and student life in Lappeenranta.

So what exactly is Pelletti? Pelletti is a subject organization, more commonly known as guild, for students in LUT, who study in the field of environmental technology, including master's degree students in sustainability science and solutions. So, you too! Pelletti's main mission is to bring together students in our field regardless of their year of study, so you'll have a big and diverse group of people waiting for you! Pelletti organizes a wide variety of events, such as parties and company visits, as well as casual get-togethers like game nights, movie nights, and monthly sports events. These events are a great way to get to know other students and the student life here in Finland. You should definitely give them all a try with an open mind, I'm sure you'll find awesome things to do and even more awesome people to hang out with! At all our events, you can be yourself and participate however you feel the most comfortable.

Pelletti as a guild is run by student volunteers, ten board members and over twenty officers with different tasks. We have an international affairs officer and a masters' officer to ensure that we have activities also for our master's and international students. Pelletti actively maintains contact with other student organizations at both LUT University and LAB University of Applied Sciences, our student union LTKY, our sister guilds in other Finnish cities, as well as our degree programme. Pelletti looks out for the interests of students in our field and is always on the students' side and ready to provide support if they encounter injustice in their studies.

Pelletti has done well in its most important mission. We are a tight-knit community that welcomes newcomers with open arms and is shaped by the unique personalities and hard work of each of its members. As you get to know the university, Pelletti's guild room is sure to become a great landmark for you. It's like a shared living room on campus, freely available to all guild members. There, you can study, play cards, or just hang out with other Pelletti members, as well as ask for advice and help. This wonderful place (rumored to be the largest guild room in Skinnarila) will be introduced to you during fresher weeks so you're sure to find it!

Starting your studies and possibly moving to a new town or even a new country will likely feel a bit scary, but you're in a lucky position. A group of amazing tutors will be there to support and help you throughout the fall semester so you can get off to a great start in your studies! Our student association's fresher captain will also make sure you get to experience the student culture and student life exactly as much as you want, and that this fall will be unforgettable.

Summer is flying by, it'll be time to kick off fresher weeks before we know it! We're already eagerly awaiting our new freshers and to share our community and culture with you. You'll recognize us older Pelletti members by our gray overalls, feel free to come ask us for advice or just to chat! So bring along an open mind, curiosity and courage, Lappeenranta will provide the rest of the ingredients for the best fall of your life!

Once again, congratulations for getting admitted, and see you soon!

Jenni Ruonela

Chair of the board, Pelletti ry

Chair of the board can be recognised from jacket made from the guild's overalls.

Fresher captain can be recognized from the helmet.

FRESHER CAPTAIN'S THOUGHTS

Hello and welcome, all new freshmen!

First of all, congratulations on your study place, and we're delighted that you've chosen our beloved Pelletti! My name is Konsta, and I'll be your Fresher Captain for the upcoming year. I'm currently a second-year Environmental Engineering student, and you'll probably recognize me from my grey Fresher Captain helmet and grey overalls—which you'll eventually get yourselves as well if you so wish to.

My role is to introduce you to the local traditions, Finnish student culture, and, of course, to make sure you feel safe, welcome, and at home here in Lappeenranta. You can always approach me with any questions, big or small, if something is on your mind, or simply if you'd like to have a chat. Both I and the entire Skinnarila community are excited to welcome you and make you a part of our amazing student community!

Our freshman weeks begin during the second last week of August and last for two weeks. However, we highly recommend arriving already during the preceding weekend (22.08.2026) to get familiar with the area and to participate in the Back 2 Uni event. Once the freshman weeks begin, your tutors and I will spend plenty of time with you through various activities and social events, helping you get to know each other while also introducing you to the university and the different student guilds.

During the second week, your studies will officially begin, and we'll gladly help you learn how everything works—from course registration and university systems to balancing everyday life alongside your studies. When you arrive, make sure to bring your matriculation cap if you have one, swimwear, a variety of clothing suitable for both parties and more formal occasions, and most importantly, an open and positive mindset.

All of us tutors and older students are eagerly looking forward to the start of the freshman weeks and to meeting you for the very first time. See you at the end of August!

Best regards,
Konsta Kynäslähti,
Pelletti's fresher captain

TUTORS

Name: Fahima Amin **Age:** 45

Where are you from: Bangladesh

Favourite place to relax: My favorite place to relax is a quiet café or nature area where I can listen to music and spend some peaceful time

One thing that surprised you about university studies: I was surprised by how much independent learning and time management is needed in university studies

What should you do right in the first week: I arrived late and missed the first orientation events, so I spent my first week getting to know new people and learning how the university systems and study practices work.

Your motto for everyday student life: Learn step by step, stay positive, and don't be afraid to ask for help

Name: Nazia Amir **Age:** 43 **Where are you from:** Bangladesh

Favourite place to relax: In general, my favorite place for relaxing is my home, I love to grab a coffee and read a book lying on my couch, or sometimes I just have a small nap in the daytime when I feel tired. But when I am outside, I feel very relaxed when I am near the Saimaa Lake; it gives me such a pacifying feeling

One thing that surprised you about university studies: One thing that quite astonished me regarding the university studies is the scope of group work. Almost all the courses contain a huge volume of group work, and your final marks on the course depend a lot on the same. By this, you are able to meet and mingle with a lot of new people as well. The good thing is if you are attached to a good group and get a few good groupmates, your work becomes much easier, and you are able to submit the assignment very properly as well as obtain a good grade. And conversely, the bad thing is if you are attached to a bad (or a not-so-good) group, studying can become quite problematic and can ultimately affect your results

What should you do right in the first week: I believe right in the first week you have to get settled at your home with all your belongings. Then at the beginning you must take steps to complete your DVV registration process and make your police card. In terms of university campus related works, you have to collect your magnetic key ASAP

Your motto for everyday student life: My motto about the everyday student life is to stay positive and think positive. Not only about student life, my motto for my whole life is to be an optimistic human being. There will be many challenges in student life, tons of assignments- exams- deadlines- retakes, but you can definitely be able to solve them if you have a pragmatic mindset towards them. "Think positively and you can do a miracle"—that's the only thing I want to say to all the newcomers

On Wappu Eve, student year culminates as new Teekkaris get their Teekkari caps.

RIL brings the field of built environment together!

Moi future teekkari!

I represent RIL, the Finnish association for civil engineers. We bring together academics from all aspects of the built environment sector. We welcome you to join over 6000 of your fellow professionals in Finland.

So what does RIL do?

We protect the interests of our members in many ways. Our core competence is enhancing the professional skills of our members by training and networking at diverse events. In addition to continuing education, we publish numerous guidelines and manuals each year. We move the field forward with statements, projects and competitions. We also regularly bring events related to the built environment sector to Finland.

What does the membership cost and why should I join?

RIL membership is **free for students**. Membership benefits include Rakennuslehti, which is delivered to your mailbox weekly, Tekniikka & Talous, an electronic magazine for students, and the magazine Rakennustekniikka. We also organize annual surveys to collect useful information about studies, summer jobs, and the salary level of students. You can apply for a grant from the RIL Foundation for an exchange abroad or for excellent academic performance. The best thing about RIL, however, is the sheer number of diverse events that are organized all over Finland throughout the year. RIL has its own section for young adults, RIL-Nuoret, consisting of volunteers, which organizes a variety of events specifically for students and recent graduates. You will also find RIL supporting the events of your subject organization, so see you there!

Have a wonderful start to your studies!

Joonas Häkli
Student liaison Aalto & LUT
RIL

Take a head start to your membership and join here!

Name: Sumedha Hansamali Wickramarathna **Age:** 30

Where are you from: Sri Lanka

Favourite place to relax: Sauna

One thing that surprised you about university studies: University studies are of high standards and up to date. Studying in LUT University is very comfortable with flexible study methods

What should you do right in the first week: In the beginning, it is essential to register for the courses in SISU

Your motto for everyday student life: I aim to balance my studies and personal life so I can live each day with less stress

TUTORS

Name: Shabnam Abolfathi **Age:** **Where are you from:** Iran

Favourite place to relax: For me, the best way to relax is to stay at home with a cup of tea or coffee. I also really enjoy walking in nature, because it helps me clear my mind and feel more relaxed

One thing that surprised you about university studies: One thing that surprised me about university studies was how important group work and time management are. Sometimes you may think you have a lot of time, but without good planning and time management, things do not go as well as you expect

What should you do right in the first week: In the first week, besides taking care of practical matters, I think new students should try to get to know the university environment, its facilities, the study system, and also the city. It is also very helpful to talk with students from the same field, especially those in higher semesters, and ask them for advice and their experiences. I also recommend joining orientation events and introduction sessions. And remember, I am here to help and answer your questions, so please do not hesitate to contact me

Your motto for everyday student life: My motto for everyday student life is: go slowly but steadily, with motivation and perseverance

TUTORS

Name: Tanha Hridoy **Age:** early 20s

Where are you from: Bangladesh / Malaysia

Favourite place to relax: By the lake or in a cozy café with coffee

One thing that surprised you about university studies: How much independence and self-motivation is needed

What should you do right in the first week: Get familiar with your courses, join orientation events, and meet new people

Your motto for everyday student life: "To Live and Let Live!"

Name: Botond Szebeni **Age:** 22

Where are you from: Hungary

Favourite place to relax: The forest or the beach, depends on the weather

One thing that surprised you about university studies: That the student culture is really diverse and full of opportunities

What should you do right in the first week: Attend every event possible to make as many connections as you can

Your motto for everyday student life: "One more episode, then I'll save my future."

TUTORS

Name: Seyed Mohammad Ali Hosseini Salami **Age:** 26

Where are you from: Iran

Favourite place to relax: On the bench near the Saimaa

One thing that surprised you about university studies: Its location

What should you do right in the first week: Get to know about SISU

Your motto for everyday student life: Let it happen

Name: Aruni Ihalagama **Age:** 33

Where are you from: Sri Lanka

Favourite place to relax: Saimaa Lake near LUT is my favorite place to relax. The peaceful atmosphere and beautiful scenery make it special in every season

One thing that surprised you about university studies: I was surprised by how independent university studies are and how much group work and practical thinking are involved

What should you do right in the first week: Join orientation activities, meet new people, and learn how to use the university systems

Your motto for everyday student life: Time flies faster than you think, so enjoy student life, make good memories, and stay balanced with your studies

To-Do-List

- ✓ Apply for an apartment as soon as possible! You can find cheap student apartments from LOAS (Lappeenrannan seudun opiskelija-asuntosäätiö)
- ✓ You can also look for apartments from private landlords and Lappeenrannan asuntopalvelu.
- ✓ Follow eLUT-checklist for degree studies: <https://elut.lut.fi/en/starting-studies>
- ✓ Pay the Student Union Membership Fee. It's mandatory to be a part of student union in Finland.
- ✓ Order a student card at www.frank.fi and you can enjoy lunches at student prices right away during freshman weeks.
- ✓ Check out the freshman guide at elut.fi. You can also find program-specific study plans and other interesting reading material on LUT University's study portal.
- ✓ Do not stress! Everything related to studies will be explained in more detail when your studies start.
- ✓ Get ready to enjoy Skinnarila's warm embrace and student life!
- ✓ Ask if you have any questions! If something is unclear before the start of studies, don't hesitate to ask for help from the fresher captain or the tutors!

On winter time, you can find students playing Kyykkä in Skinnarila.

TUTORS

Name: Samiya Mazhar **Age:** 40 **Where are you from:**

Favourite place to relax: Lake side marina and beach near my house

One thing that surprised you about university studies: One thing that surprised me about university studies is that the workload continues throughout the whole semester. There are always assignments, quizzes, and deadlines, so students stay busy most of the time.

What should you do right in the first week: In the first week, you should attend all classes, understand the course outline, and note important deadlines. You should also meet your teachers and classmates so you can adjust quickly to university life.

Your motto for everyday student life: Stay consistent, manage your time, and never give up.

Name: Husna Hamid **Age:** **Where are you from:** Pakistan

Favourite place to relax: My favourite place to relax is to sit near the lake and listen to the Calmness of water and enjoy calm atmosphere.

One thing that surprised you about university studies: I was surprised by how independent learning and time management are necessary.

What should you do right in the first week: In first week we should attend the orientation events with tutees, explore the campus, meet new people and carefully check the schedules for classes.

Your motto for everyday student life: Stay positive, believe in yourself and keep moving forward.

TUTORS

Name: Duleeka Manori Ampitiya Gedera **Age:** 34

Where are you from: Sri Lanka

Favourite place relax: My favorite place to relax is near a lake or in nature with a peaceful environment.

One thing that surprised you about university studies: I was surprised by how much independent learning and self-management are important in university studies.

What should you do right in the first week: Should attend orientation activities, meet new people, and become familiar with university systems and campus locations.

Your motto for everyday student life: Stay positive, keep learning, and enjoy the journey

Name: Shawon Palit **Age:** 34

Where are you from: Bangladesh

Favourite place to relax: Saimaa Lake

One thing that surprised you about university studies: Electronic exam

What should you do right in the first week: DVV Registration

Your motto for everyday student life: Finish the regular task

TUTORS

Name: Prabesh K C **Age:** 32

Where are you from: Nepal

Favourite place to relax: Piano hall

One thing that surprised you about university studies: In the beginning everything looked so complex, but as time went on, how quickly we learnt so much!

What should you do right in the first week: In the first week, attend classes and get to feel the academic environment. Also, introduce yourself to your colleagues, and talk to teachers whenever possible!

Your motto for everyday student life: Do not try to be the best, just do your best!

Name: Vilma Heczko **Age:** 30

Where are you from: Finland

Favourite place to relax: By the lake

One thing that surprised you about university studies: So much groupwork!

What should you do right in the first week: Meet as many new people as possible

Your motto for everyday student life: One day and one assignment at a time - remember to have fun too!

LTKY - FOR YOUR CAUSE

Welcome to Lappeenranta, new Pelletti member!

I'm Sara, a member of the LUT Student Union (LTKY) Board and your guild mentor. It's wonderful to have you as part of our student union! LTKY, the Student Union of LUT University, represents all LUT students and serves as the highest decision-making body of the student community in both cultural affairs and student advocacy. Our organizational structure consists of the Representative Council, the Board, and the staff. The Representative Council includes 27 students elected through elections, who decide on our goals and policies. The Board leads and implements the student union's daily operations together with the staff, following the guidelines set by the Representative Council. In addition, there are several committees and working groups.

So, what do we do? LTKY maintains and develops student culture, supports student associations, organizes events, communicates students' views to stakeholders, monitors the quality of education, and helps all its members in the best way possible. Our member services also include things such as renting out facilities and equipment, ordering traditional engineering student caps, and providing updates on current matters at LUT. LTKY owns Aalef Oy, which operates the YOLO student restaurant in the Student Union House as well as a kiosk in the university lobby. Everyone is welcome to visit our offices and enjoy a cup of coffee whenever we are open!

The student community is full of different associations and organizations. Guilds are associations for students in specific fields that provide services tailored to students of those disciplines. In addition to Pelletti, there are 10 guilds in Lappeenranta and 3 in Lahti. Each guild has its own overalls, traditions, and customs. There are also more than 30 hobby clubs offering all kinds of activities together with fellow students.

Student culture consists not only of the organizers but also of all participants, traditions, and customs that are maintained together. For many students, the highlight of the year is Wappu (May Day), which is celebrated in Lappeenranta for over a month. Finland's Longest Wappu is a joint effort organized by LTKY, the guilds, and the clubs, featuring events and activities every day throughout the celebration period.

In LTKY's office you can stop for a cup of coffee or tea.

Sara, our guild's "godparent" from LTKY can be recognised from her light blue overalls!

Where Can I Find My Place?

Student life and university years open up such a vast range of opportunities that it can be difficult to know where to start. I strongly encourage you to try different courses, clubs, and events. Even experiences, projects, or activities that do not end up feeling like your thing can lead you toward something even better. I myself only became actively involved in educational policy during my third year, after taking many different paths, and I have enjoyed it immensely. My own career aspirations have also become clearer one course and one year at a time, even though I have often felt uncertain about my direction.

New interests, passions, and friendships can be found in unexpected places, so give yourself the freedom to try, fail, and experiment. There is plenty of time, and the opportunities never run out!

Meet Your Guild Mentor

I am LTKY's Board Member responsible for Educational Affairs, more commonly known as the Education Policy Officer (Kopo), and I study Social Sciences. I work together with our Educational Affairs Specialist Henna and another Board Member responsible for educational affairs, Vera. We bring students' wishes and needs regarding education to LUT and ensure that our educational programs are developed accordingly.

In spring 2026, my responsibilities included participating in a bachelor's degree development project, conducting the annual teaching quality review, and analyzing its results.

I hope we get the chance to meet and get to know each other! You can find me on Telegram as @saraskila, on Instagram as @saraski, and by email at sara.taskila@ltk.fi.

P.S. Pelletti is absolutely the best thing in the world!

Tips to Make Everyday Student Life Easier and More Enjoyable

- The Skinnarilainfo website provides restaurant menus for all campus restaurants.
- The LTKY website includes an exam archive where you can find past exams from various courses and use them for studying.
- The campfire sites (notskit) on the Lappeenranta campus are a wonderful place to sit down, roast marshmallows, and meet new people.

TEKNIIKAN AKATEEMISET - TEK

Hey new fresher of Pelletti!

Welcome to Lappeenranta to be a part of our Teekkari community. The Tekniikan Akateemiset, more commonly known as TEK, takes care of all teekkarit (technology students) in Lappeenranta as well as elsewhere in Finland. TEK is an advocacy and service organisation for experts in the field of technology. We have about 83,000 members, one-third of whom are students. Almost 85% of Teekkaris are a part of TEK! Most of our student members study in the technical field and graduate as a Master of Science in Engineering. Our mission is to support you so that you can achieve interesting summer jobs during your studies, as well as get the best possible skills to succeed in working life once you graduate. We also support teekkari culture as well as guilds and student organizations in organizing student activities, such as various events. As a member of TEK, you will also be part of a community of technology experts. Located on the Lappeenranta campus, TEK-Lounge is a comfortable space for members, available for study and leisure.

On the upper floor of the Student Union Building, you will also find plenty of TEK-built group work space, as well as a room for a proper break exercise. TEK membership is free of charge for the student, and as a student member you will have access to many useful and valuable services! Become a member of TEK free of charge at www.tek.fi/liity-student. What, then, is the writer's role? As the name implies, the most important task of a TEK guild contact person is to communicate between TEK and Pelletti. In addition, I will keep TEK-info for you freshmen already during the first weeks of studies here on the shores of Lappeenranta. It is a good idea to join TEK immediately so that you can enjoy membership benefits already in the early stages of your studies. I hope you have a nice and relaxed summer.

See you on the fresher weeks!

Best regards,

Katja Immonen

Student member services include:

- TEK-magazine delivered to your home, a magazine-like member magazine published five times a year
- TEK's workbook, a very useful guide to job searching, can be found at www.tek.fi/tyokirja
- Free and events targeted for students
- TEK-Lounge services on campus
- Salary advice and student salary recommendations

SUOMI-TEKKARI-ENGLISH

DICTIONARY

G	Cafe Bar G, pub located near Ylioppilastalo
Kilta	Guild, which is organization for students in the field of study
Kiltis	Short for Kiltahuone (Guild room), Pelletti's own club room
Kylteri	Nickname for economics student
LTKY	The Student Union of LUT University
Moska	Card game played in Pelletti's guild room
Noppa	Nickname for opintopiste, which translates to course credit
Pelletti	Guild for environmental technology students.
Pelehti	The info booklet for the new Freshers, one you are reading right now
PK5	Punkkerikatu 5, popular weekly sauna location
Skinfo	Skinnarilainfo, website, which provides menus of lunch restaurants and bus timetables to University
Skinnarilan henki	Skinnarila's spirit, values and good will that lives among students of Skinnarila
SVV	Skinnarilan Vapaa Valtio, which is Skinnarila's campus area's playful name as its own nation
Teekkari	Nickname for engineering student
Yhviläinen	Nickname for social and communication student
Yolo	Short for Ylioppilastalo, Student Union house
Ynte	Short for ympäristötekniikka, environmental technology
Ymteläinen	Environmental technology student, like you and I

Dear Fuksi!

Become a student member of TEK! Membership is completely free, and includes a host of services to help you not only work in Finland, but to thrive here. These include guidance on how to summer job hunt, recommendations for your salary, as well as legal aid to check your first contract or to later protect your rights. As a joining gift, you will receive a TEK overall belt.

TEK is the trade union for students and graduates in technology and the natural sciences. There are more than 83,000 of us!

Find out more at www.tek.fi/en/students or join www.tek.fi/en/join now!

- B: 2011
- C: 2010
- D: 2002

LUT is an abbreviation of words:

- A: Lappeenranta University of Technology LUT
- B: Lappeenranta-Lahti-Kouvola-Mikkeli University of Technology LUT
- C: Lappeenranta-Lahti University of Technology LUT
- D: Lappeenranta-Lahti University of Technology, comprehensive school-kindergarten LUT

Answers - 1B, 2A, 3A, 4C

HOROSCOPE

Aries (20.3.-19.4.)

You're already waiting for school to start like the moon to rise. It feels like the ground is burning under your feet, and you can't wait to meet the other freshers. However, be sure to maintain your composure if you do not immediately find the right class on your own.

Tree: Scots elm
Flower: Tulip
Event: Fresher Orienteering

Taurus(20.4.-20.5.)

You may be skeptical of your new hometown, but you adapt to Lappeenranta better than well. The intensity of fresher weeks may upset your calm soul a bit, but with the right ratio of fun and rest you will do very well.

Tree: English oak
Flower: Dog violet
Event: I love Mondays

Gemini(21.5.-20.6.)

The beginning of school will make you jump from enthusiasm. You can't wait to talk to your new classmates. But remember also to give others the floor. You will enjoy Lappeenranta very much.

Tree: European ash
Flower: Geranium
Event: Fresher sitz-party

Cancer (21.6.-22.7.)

You may have already planned what you are going to do in your first few days. Remember, in the rush of freshman weeks, your plans may go up again. As a caring and gentle person, you will succeed.

Tree: Sorbus
Flower: Rose
Event: Fresher Olympics

Leo (23.7.-22.8.)

You're open-minded about your new hometown. You are full of energy and enthusiasm. You're looking forward to freshman weeks and your first year, and I'm sure you'll enjoy it. However, remember to leave room for those around you as well.

Tree: Bird cherry
Flower: Sunflower
Event: Grayest day of the year

Virgo (23.8.-22.9.)

You're already thinking feverishly about your classes. You wonder how to get an A grade and attend events at the same time. Remember that not everything has to be perfect. Your future fellow students will be able to appreciate your accuracy.

Tree: Maple
Flower: Chrysanthemum
Event: Powicup

Libra (23.9.-22.10.)

You had hard time choosing a place to study and ended up making the right choice! You may already be looking forward to meeting your new friends with a little excitement. You have also started the selection of your first day's outfit well in advance.

Tree: Basswood
Flower: Hortensia
Event: Suit up

Skorpio (23.10.-21.11.)

You are already looking forward to pondering the dramas and patterns caused by the small circuits on Lappeenranta. You may be an advisor to your group of friends and sometimes you may immerse yourself in relationships rather than in school. Remember to study too!

Tree: European spruce
Plant: Pelargoniums
Event: FinnHits

Sagittarius (22.11.-20.12.)

You start school with a positive mindset. You are looking forward to studying as well as the adventures of student life. You will surely live a memorable fresher year thanks to your openness and charisma.

Tree: Grey alder
Flower: Wild pink
Event: Fresher excursion

Capricorn (21.12.-19.1.)

You have been waiting for the program and schedule of freshman weeks since the reception of the place of study. I'm sure you'll be very successful in your studies, thanks to your conscientious nature. Your friends will also thank you for your organization skills and ideas.

Tree: Pine
Flower: Poinsettia
Event: Karjalan Appro

Aquarius (20.1.-18.2.)

You are open-minded and that is also an advantage when starting school. You are innovative and have a lot of good point of views. They will carry you a long way in studies as well as in the student community.

Tree: Silver birch
Flower: Lent lily
Event: Back to Uni

Pisces (19.2.-19.3.)

You dream a lot and may have already created an ideal picture of the events of fresher weeks. Lucky for you, what you imagine is becoming a reality, as you have chosen the best student city and community of all, where life is just the best.

Tree: Black alder
Flower: Water lily
Event: Lounge party
